

Let Everybody Win

New day has come, but nothing has changed at all
we all are surrounded by the same blindness
though we are many on this Earth, but there`s enough space for everyone
we can create new day – all together

when we go to the school we are taught how to count
how to dominante, how to win the game, how to fight for the place
but when they will teach us how to find the precious way to our own hearts
and teach us how to except each other

you don`t have to be affraid no more
`coz this is whole new beggining
in this life we are playin` let everybody win

if we just could accept ourselves at the start
then sharing love wouldn`t be that terrifying
God created us so different but also so equal, yes He has
and we can give love to others as He does

so you don`t have to be affraid no more
`coz this is whole new beggining
in this life we are playin` let everybody win

*You see, We can change many things if we can change the way we are
and realize that there is nothing to fight for
We have to be **brave** enough
We have to be **wide** enough
We have to be **wise** enough
We have to be **fond** enough
`cause that`s the only way*

you don't have to be affraid no more
`coz this is whole new beggining
in this life we are playin` let everybody win

in this life we are playin`
let everybody win
