

Song I Like To Sing About

I like to be with my friends and share some good vibes
We like to laugh and play and sometimes even cry
We share many stories about our everything
That`s why I did this song I like to sing about

This is the, this is the, this is the song about
I like to, I like to, I like to sing about
This is the, this is the, this is the song about
I like to sing about

I like to be with my baby and share our lifetime
We like to dance in the moonlight – all night long
From sunrise till sunset we like to do one thing
It starts with a gentle kiss... I ain`t tell you all the details!!!

This is the, this is the, this is the song about
I like to, I like to, I like to sing about
This is the, this is the, this is the song about
I like to sing about

*There was a time I felt lonely, misunderstood or blue
But since I`ve got this song
No, no more, `cause it`s worthwhile
To sing about I like to sing about*

This is the, this is the, this is the song about
I like to, I like to, I like to sing about
This is the, this is the, this is the song about
I like to sing about

And, of course, my family - there`s no me without their love
They`re always on my side - no matter what people are sayin`
And now if you are thinking, that I`m so lucky (you are soooo right)
Let me tell you one thing straight -
you have exactly the same, just open your eyes

This is the, this is the, this is the song about
I like to, I like to, I like to sing about
This is the, this is the, this is the song about
I like to sing about

Just open your eyes now and sing along

Just open your eyes and see all the beauty around you
