

Queen Of My Heart

You heard me when noone did
You cared me when I was alone
Mother, You are the one who cares

You smiled at me when I cried
You believed in me even noone did
Mother, You are the one who loves

You are my life
You are the queen of my heart

You are the morning star
You are my joy of life
Mother, You are the one who showed me the way

mama, you gave me strength when I was weak
You gave the shelter in my despair
How can I ever thank you just tell me how
But until then please listen
What my heart is saying:

You are my life
You are the queen of my heart
